[4448] **A03-03-043 - Southern California Edison Company (SCE).**
This decision denies the Request for Stay and Temporary Restraining Order by N.O.P.E., Inc. (NOPE) filed in this proceeding on September 9, 2004. NOPE's request seeks an order from the Commission that would require SCE to cease construction of its Viejo System Project, a transmission upgrade project authorized by the Commission in D04-07-027. The decision finds that NOPE has not met its burden to demonstrate any of several criteria for the issuance of a stay or TRO. Because the Commission does not find a TRO to be appropriate in this case, the issue of whether to stay the underlying order is moot. This proceeding is closed.

ALTERNATE TO ITEM 4103

A00-11-056; A00-10-028 - Related matters. This decision awards The Utility Reform Network (TURN) \$288,402.18 compensation for (1) its further participation in the federal district court proceedings in which Southern California Edison Company (Edison) and Pacific Gas and Electric Company (PG&E) challenged the Commission's jurisdiction to limit the utilities' recovery of increased wholesale procurement costs and (2) its efforts in judicial review of Decision 02-06-070, which awarded TURN intervenor compensation for its earlier participation in those federal proceedings. The decision denies TURN compensation for its judicial litigation costs of challenging the Commission's settlement resolving the Edison federal district court proceeding. Its rationale for so doing is that TURN did not contribute to the settlement and did not succeed in its attempt to overturn it.

[4324]

This decision responds to the California Court of Appeal's remand order directing the Commission to determine whether short run avoided cost (SRAC) prices between December 2000 and March 2001 were correct and consistent with the Public Utilities Regulatory Policy Act of 1978. This decision determines that SRAC prices between December 2000 and March 2001 were correct, and that retroactive application of the SRAC transition formula as adopted in D03-01-067 is not warranted.

[4375]

This decision addresses the issue of the participation of renewable distributed generation (DG) in the Renewable Portfolio Standards (RPS) program, and spells out the general principles that will guide that participation particularly regarding Renewable Energy Credits (RECs). The decision finds that the owner of the renewable DG facilities own the RECs associated with the generation of electricity from those facilities, those RECs may be used to satisfy the utilities' RPS targets, and the RECs stay bundled with the associated electricity.

R03-09-006 - Conference with Legal Counsel – Application for Rehearing

Disposition of Application for Rehearing and/or Request for Stay of D04-12-056 filed by Southern California Edison Company (SCE), and/or Disposition of Application for Rehearing of D04-12-056 filed by the Pacific Gas and Electric Company (PG&E) and the San Diego Gas and Electric Company (SDG&E). D04-12-056 prohibits the use of 'reverse auctions' in energy utility construction contract bidding procedures, a practice in which bidders compete for contracts by lowering their bids until the lowest bid is accepted. D04-12-056 also requires respondent utilities to ensure the payment of prevailing wages by their construction contractors in all construction. SCE, PG&E, and SDG&E, respondent utilities, seek rehearing on allegations that latter provision of D04-12-056 is preempted by federal law, contrary to Commission Rules, and not supported by the record of the proceeding.

C00-01-017 - Conference with Legal Counsel - Application for Rehearing

Disposition of the request for an application for rehearing of D05-01-006 filed by Golden State Homeowners League, Inc. (Golden State). D05-01-006 denied Golden State's request for intervenor compensation for its contribution to D01-08-040 and D04-06-007 in C00-01-017 for the following reasons: (1) Golden State did not make a substantial contribution to the Decision; (2) Golden State's work completed on behalf of the Complainant is not compensable because the complainant is not eligible for intervenor compensation; and (3) Golden State does not qualify as a customer under Public Utilities Code Section 1802(b).
